What is a Merchant Cash Advance?

A Merchant Cash Advance is an advance made on your credit card sales. The advance is paid back by taking a small percentage of your future monthly credit card transactions.

Requirements for Our Merchant Cash Advance Program:

A business with a merchant account which has been in operation at least 6 months.

In most cases, Merchant Cash Advance would:

Reduce your fees paid for your merchant account

Get you funds to use for whatever you wish within 7-10 business days

Advance would be “invisible” to other creditors and not be a lien on one’s business.

Have zero credit impact even in cases of a default.

Not affect your debt to income ratio at all.

Procedure:

Complete application and submit along with 4 months of credit card transactions records

Review your options with a cash advance specialist (will call you after underwriting is complete)

Choose the best option for your situation

Receive a wire of funds within 10 business days since submitting the original materials

Costs/Options:

Costs and options vary and will be provided after application is made. Underwriting only takes a matter of a few hours.
